---

WORK EXPERIENCE

- As the founder of MyMe Webmakers, I lead a dedicated team of five members in delivering exceptional web solutions to a diverse clientele, including real-time projects. **From jan-2021**

- Actively oversee operations as the manager of the Entrepreneurship Development Cell at my college, fostering an environment that nurtures innovation and entrepreneurial spirit among students.

  From dec-2023

PROJECTS

ELECTRIC BIKE SHOWROOM WEBSITE: **feb-apr (2024)**

I created a website for MMotors, a Royal EV franchise showcasing electric bikes. This project provided hands-on experience in web development, while also offering insights into marketing, customer engagement, and brand management within the electric vehicle industry.

FUNDEST APP: **jan(2024)**

I designed the user interface for Fundest, an app bridging the gap between entrepreneurs and investors. This project allowed me to demonstrate my creativity and problem-solving skills while contributing to the realization of a platform aimed at fostering connections and facilitating investment opportunities.

AMCET NOTES WEBITE: **nov(2023)**

I utilized WordPress to develop a website for my college, providing a platform for seamless uploading and access to course notes. This project showcased my proficiency in WordPress development and dedication to enhancing academic resources for fellow students
